SAFE Management

WHAT IS SAFE MANAGEMENT?

SAFE Management, LLC, is a wholly owned subsidiary of **Investview (INVU)** and a State Registered Investment Advisor, and NFA Registered Commodity Trading Advisor. **SAFE Management** also allows **FXpro** subscribers access to advisory services that include placing and managing trades on your behalf.

FX Global

WHAT IS FX Global?

Clients of **SAFE Management** gain access to **FX Global**, a fully managed portfolio product that blends fundamental and technical elements with correlating data to exploit short-term trends in the deeply liquid currency market.

With the goal to keep open account losses under 20% using normal leverage, capital protection and preservation is of utmost importance. The **FX Global** strategy seeks to produce consistent long-term returns over time.

- ◆ The minimum investment for the **FX Global** strategy is \$500.
- ◆ See <https://safeadvglobal.com/> for more information.

Disclaimer: You should consult with your tax and/or legal advisers to ensure accurate reporting and the handling of taxes related to investment revenue. All investing involves risk including the risk of losing all of the money invested. Exchange Traded Funds mirror the performance of the index, in this case the S&P 500 however, ETF performance does vary from the actual performance of the underlying index. This variance could be larger in double and triple leveraged ETF's. This is a managed portfolio service but not a customized portfolio service. It is designed to trade according to the strategy defined and proper allocation of an investor's overall investment capital should be made. **SAFE Management** is available to assist a customer with the proper allocation. Startup investing (crowdfunding) has a higher degree of risk as these are newly established companies or emerging technologies that can be negatively affected by a variety of factors including but not limited to: limited access to capital, competition, technology risk, management risk and product risk to name a few. For the Bull & Bear Tracker's performance statistics and additional information go to BullBearTracker.com. Note. In the event that a startup is not purchased during the month the 1% accrues for utilization in a future month.
